

Garden Design - Circle

Measure your garden site. If you want a circle garden of 150 square feet, the diameter will be 14 feet, which you'll draw here as 7 inches. 1 inch = 2 feet. A 10 foot line you would draw as 5 inches on paper.

14 feet in “real world” = 7 inches on paper

Garden Design - Rectangle

If your garden will be 10 feet by 15 feet,
then draw a rectangle of 5 inches by 7.5 inches.
